Overview

Shee Atiká Enterprises, LLC (SAE) is trusted to solve intractable problems in research, studies, and scientific services for our people, partners, and customers. SAE is at the forefront of a niche federal contracting space driving scientific and medical advancement to improve our quality of life and public health and enhance our country's military effectiveness. SAE evaluates and manages initiatives that promote the health, safety, and wellness of Americans and the U.S. military from conducting digital health research and implementation studies to developing trials of time-released precision nutrition technology.

As an SBA-certified 8(a) Alaska Native Corporation (ANC), SAE is eligible to receive direct awards. This unique contracting vehicle streamlines the procurement process for the client, project partners, and the end user. The final result is a cost-effective solution that meets mission requirements at the speed of innovation.
